How to...
Make an Instructional Poster
~ Instructional posters show someone how to do something ~

Pick a Topic
1
Make it something you're passionate about

Research Time
2
Find out everything you can

Define Your Audience
3
The context is important too

Break Down Your Topic
4
Into simple and sequential steps

Decide on Design
5
Don't forget color and *font*!

Sketch it Out
6
Make a poster prototype

Test it Out
7
With some of your target audience

Put it All Together
8
Don't forget to incorporate feedback from your test!
